

Red lines indicate sew lines that breach the product containment area, forcing the use of liners

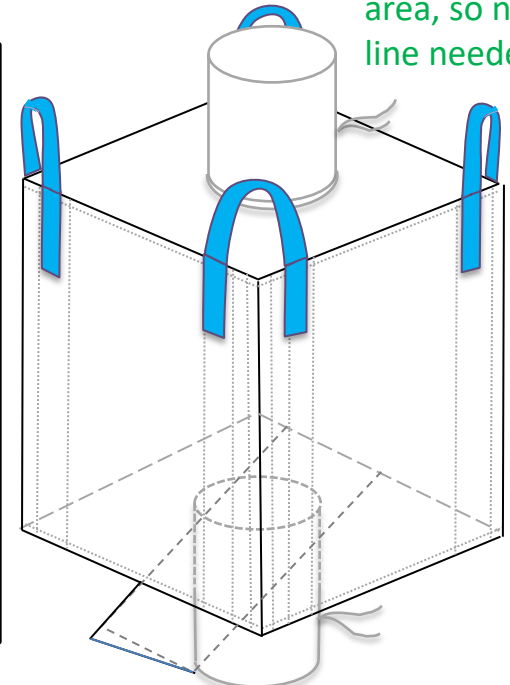

**Standard Lined Bulk Bag**

**FUSION Bulk Bag Benefits versus Standard Bags**

	Standard Lined Bag	FUSION Bulk Bag
No Issues Caused by Liner During Filling	✗	✓
Does Not Require Liner for Cleanliness	✗	✓
Does Not Require Liner for Moisture Protection	✗	✓
Liner Will Never Extend into Receiving Equipment	✗	✓

No sew lines in the product containment area, so no line needed

**FUSION Unlined Bulk Bag**

Sew Liners  
Fabric Damage = Liner Needed for  
Threat of Needle or Thread Fragments = Many Applications

No Sew Lines  
No Fabric Damage = No Liner Needed for  
No Needle or Thread Bits = Most Applications
